WEATHER FORECAST FOR WEDNESDAY

Forecast for Salt Lake City and Utah: Showers and cooler Wednesday; Thursday, partly cloudy.

The eastern part of the country is still under the influence of a low pressure area that is causing general rains at 6 p. m. along the Atlantic coast. This storm center is dominating the weather east of the 90th meridian. Another low pressure is central over eastern Washington, with a trough extending southward to the Mexican border. This condition is causing general cloudiness, but has caused very little precipitation. Moderately high pressure prevails over Montana southward to the west guilf. Temperatures have remained stationary over the west, but fallen somewhat over the east.

Showers and cooler Wednesday; Thursday, partly cloudy, are the indications for Salt Lake City and Utah.

CURED BY CUTICURA

"Several years ago I had a little pimple come between my ankle and knee. I opened it with a pin which caused it to infiame. In a short time my limb was so poisoned and swollen I could scarcely use it. I suffered intense pain, being unable to rest day or night. I tried every remedy recommended, consulted several specialists but grew worse all the time, finding no relief in anything.

"My sister recommended the Cuticura Remedies. I began using the Cuticura Remedies according to directions and I was so much relieved that I slept some the first night. The itching, burning and swelling in my limb gradually decreased and the sore began to heal. After six months' suffering such as I had endured, the relief was wonderful. I continued the treatment several weeks and a permanent recovery was the result. and a permanent recovery was the result. I shall ever recommend the Cuticura Remedies to any one suffering from blood and skin diseases. Mrs. D. M. May, R. F. D. 5, Goldsboro, N. C., Oct. 25, '09."

TRUMPET OF MORONI IS JARRED BY QUAKE

When the earthquake Sunday morning shook this city of the saints Moroni, who has so long stood guard with his trumpet on the center tower of the temple, was jarred—and jarred badly. The trumpet, which heretofore was held on a slant with the mouthpiece close to the lips of the statue, was shaken to almost a horizontal position and the mouthpiece switched several inches from Moroni's mouth. In view that it is 220 feet from the street to the chin of the statue the distance from the lips to the trumpet must be over a foot. Whether or no an attempt will be made to restore it to its original position has not been decided upon.
